Property Description

Bamboo Luxury Villa Pattaya , a distinguished development by Mario Kleff nestled in the peaceful enclave of Huay Yai, East Pattaya.
Project Highlights
• Low-density luxury: Only 10 detached two-storey villas ensure privacy and exclusivity.
 Plot & living space: Villas sit on generous plots of about 540 sqm, with approximately 365 sqm or refined living space per home.
• Architectural brilliance : Designed by Mario Kleff, each villa blends modern aesthetics with sustainable features—high ceilings, floor-to-ceiling windows, lush garden integration, and natural light aplenty.
Sustainability & Design Philosophy
This development reflects Kleff's forward-thinking ethos: merging architectural sophistication with eco-friendly elements. From sustainable landscaping with bamboo as both aesthetic and ecological feature, to energy-efficient building systems, each villa embodies harmonious living and lasting quality.
